

16 January 2023**3D Trans Ltd sees crystal clear results from new Scania trucks supplied by Asset Alliance Group**

Cheshire haulage business, 3D Trans Ltd, has added five new Scania R500 6x4 tractor units to its fleet from Asset Alliance Group.

Supplied on a three-year full-service contract hire deal, the Scania trucks join a mixed fleet at the Widnes-based storage and transportation services company – including 15 MAN and seven DAF trucks – that are predominantly moving containers to and from UK ports to customers across the country.

Transport Manager, Stuart Buckley-Mellor, says: “We’ve never had Scania trucks before, but we decided to add some to our fleet based on their reported performance and fuel efficiency. It’s proven to be the right decision for the vehicles we need.

“We’re very happy with them and so are our drivers. They can be covering up to 120,000 km per year. The new tractor units are robust and reliable, and we’ve seen a lot less downtime than with some of our other trucks.”

Buckley-Mellor says the Scania trucks are also offering other benefits. “On the road they present a strong image for 3D Trans Ltd. You attract better drivers with better vehicles that are fully specced up for their comfort. That is a massive asset to the company,” he adds.

3D Trans Ltd has a longstanding relationship with Asset Alliance Group spanning more than six years. The new Scania trucks join the company amid a rolling fleet renewal programme that saw the commercial vehicle specialist supply a number of assets last year to support steady growth for the business.

“I’ve worked with Asset Alliance Group for a long time now and it’s great to do business with its expert team. I can trust the sales team to deliver what they say they’ll deliver and they offer a range of manufacturer options to suit our needs – and always in a timely manner,” says Buckley-Mellor.

Richard Worthington, Business Development Manager, Asset Alliance Group, says: “We’re delighted to continue growing our relationship with 3D Trans Ltd, ensuring we source the best vehicles that match all of its business needs.”

ENDS**Note to editors:**

Asset Alliance Group has redefined the way companies acquire transport and logistics vehicles and occupies a unique position in the market, as it uses its own funds and significant buying power to supply multi-brand truck, trailer, bus and coach vehicles on any combination of contract hire, operating lease, finance lease or hire purchase. This flexibility,

combined with a transparent and consultative approach, helps customers drive maximum efficiency from their fleets.

Asset Alliance Group also stands out for maintaining full control of residual risk through its retail arm, which protects customers from overly strict return conditions commonplace in the industry.

The Group operates across five UK sites and is headquartered in Wolverhampton.
