Currie Solutions hails Asset Alliance Group service after order of 13 new trucks

Transport and logistics firm, Currie Solutions, has strengthened its long relationship with Asset Alliance Group after taking delivery of 13 Mercedes-Benz Actros trucks.

The Dumfries-based company, which provides bespoke freight forwarding, transport distribution and pallet delivery services in the UK and Europe, had no hesitation in returning to the commercial vehicle specialist for its latest order to renew its fleet.

Allan Jamieson, Operations Director at Currie Solutions, says: "As our company grows, we can count on the support of Asset Alliance Group. We trust Senior Business Development Manager Dougie Bennett and his team to supply the best vehicles to meet our needs and they have never let us down.

"We lean heavily on Dougie's expertise and have a lot of respect for him. We always get quick answers about vehicle availability and accurate lead dates. He offers brilliant advice and has helped us to make the right decisions for our business."

Supplied on three-year contract hire agreements, the new arrivals join a fleet of 130 vehicles and 450 trailers at the company, whose depots are strategically located in the UK, France, The Netherlands and through its partners in Germany and Italy.

The Mercedes-Benz Actros tractor units operate out of its Warrington site and are being deployed for trunking duties and distance travel throughout the UK.

The commercial vehicle specialist last year supplied the firm with 18 new DAF XF 530 Super Space Cab 6x2 tractor units and three MAN rigids.

Dougie Bennett, Senior Business Development Manager at Asset Alliance Group, says: "We are a people business at heart, and I believe we do a great job in putting our customers first so that they come back to us again and again. We've built up a great rapport with the team at Currie Solutions and look forward to being a trusted partner in the company's growth plans."

Established in 1977, Currie Solutions provides a wide range of transport solutions for its UK customers, offering contract transport services, tailored logistics management solutions and more than 250,000 sq ft of warehousing across its depots.

ENDS

Note to editors:

Asset Alliance Group has redefined the way companies acquire transport and logistics vehicles and occupies a unique

position in the market, as it uses its own funds and significant buying power to supply multi-brand truck, trailer, bus and coach vehicles on any combination of contract hire, operating lease, finance lease or hire purchase. This flexibility, combined with a transparent and consultative approach, helps customers drive maximum efficiency from their fleets.

Asset Alliance Group also stands out for maintaining full control of residual risk through its retail arm, which protects customers from overly strict return conditions commonplace in the industry.

The Group operates across five UK sites and is headquartered in Wolverhampton.
