

28 August 2024**RMS Waste Disposal returns to Asset Alliance Group to fund its latest fleet additions**

Asset Alliance Group has continued its long working relationship with RMS Waste Disposal, providing the finance for two new tankers.

A 16-tonne Renault D18 4x2, equipped with a high-spec 2,150 gallon tank from Fuller Tankers, and a larger Renault C P8x4, fitted with a V J Engineering 4,200 gallon vacuum tank, have both been supplied on a five-year hire purchase agreement.

The new tankers will be used for a variety of work including slurry clearance, emptying septic tanks and clearing liquid and food waste from factories, for a wide customer base across the south coast of England. Both trucks will be in operation five to six days a week.

Richard Salter, Owner of RMS Waste Disposal, says: "These new vehicles will enhance our growing fleet and improve the service levels we offer to our customers.

"When it comes to finding the right finance solutions, Asset Alliance Group never let us down. We have built a very strong relationship with them over the years; I get far better rates than when I go to other finance companies and the service is always first-class."

The deal was secured by Asset Alliance Group Sales Director, Darren Fitzpatrick.

"We operate seven tankers in total now and all of them have been financed by Asset Alliance Group," adds Salter. "Darren has been helping me with our finance requirements for more than 20 years. I have no reason to look anywhere else."

"It has been great to see the success of RMS Waste Disposal over the years and we are very happy to support them with their latest fleet additions once again," says Fitzpatrick. "Establishing long-term working partnerships is so important to us at Asset Alliance Group."

Established in 1997, RMS Waste Disposal specialises in septic tank emptying, sewage treatment, drain unblocking, plus oil and water separation. To manage its impressive growth, the company recently moved to a new larger site, at Oak Farm, in the village of Wickham.

ENDS**Note to editors:**

Asset Alliance Group has redefined the way companies acquire transport and logistics vehicles and occupies a unique position in the market, as it uses its own funds and significant buying power to supply multi-brand truck, trailer, bus and coach vehicles on any combination of contract hire, operating lease, finance lease or hire purchase. This flexibility, combined with a transparent and consultative approach, helps customers drive maximum efficiency from their fleets.

Asset Alliance Group also stands out for maintaining full control of residual risk through its retail arm, which protects customers from overly strict return conditions commonplace in the industry.

The Group operates across five UK sites and is headquartered in Wolverhampton.
