Carrier Transicold Launches Online Parts Marketplace to Simplify Fleet Maintenance Across Europe

Finding the right parts starts with the right expertise. Visit Hall 27, Stand E35 at IAA Transportation, Hannover, Germany

RUEIL-MALMAISON, France, Sept. 14, 2026 — [Carrier Transicold](#) is launching [Carrier Transicold Parts Shop](#), a new online parts marketplace that connects refrigerated transport operators and service providers across Europe to the expertise, support and genuine parts they need to keep fleets moving. Designed to make sourcing, ordering and serving refrigeration parts simpler, faster and more reliable, the platform provides 24/7 access to OEM parts, approved products and trusted support through Carrier Transicold's certified Service Partner network. *Carrier Transicold is a part of Carrier Global Corporation (NYSE: CARR), global leader in intelligent climate and energy solutions.*

Launching first in Germany and expanding to additional European countries before the end of the year, Carrier Transicold Parts Shop provides access to more than 30,000 transport refrigeration parts, including filters, compressors, telematics connectivity kits and solar panels.

As a manufacturer-led marketplace, Carrier Transicold Parts Shop combines genuine parts, trusted expertise and certified service support in a single experience designed around the realities of fleet operations. All Carrier Transicold products available

through the marketplace are sourced through Carrier Transicold's authorised parts network, helping customers purchase with confidence.

"Finding the right part starts with the right expertise," said Kaan Yavas, Spare Parts Business Unit Director, Carrier Transicold. "Carrier Transicold Parts Shop gives customers faster access to the genuine parts, technical expertise and service support they need to keep equipment operating reliably. By bringing those capabilities together in one digital platform, we're making it easier to reduce downtime and keep critical supply chains moving."

Unlike a traditional e-commerce site, Carrier Transicold Parts Shop connects customers with Carrier Transicold's extensive Service Partner network, providing access to local experts who understand their equipment, operations and service needs.

Flexible fulfilment options include pickup from participating locations and express or standard delivery services, helping customers get equipment back, service faster and reduce unplanned downtime.

Carrier Transicold will introduce the marketplace at IAA Transportation in Hannover, Germany, where experts will demonstrate how the platform simplifies parts procurement with real-time availability, streamlined ordering, delivery tracking and access to OEM-validated product information. Visitors also can explore Carrier Transicold's latest refrigeration innovations at Hannover Messe in Hannover, Germany, Sept. 15-20 at its booth in Hall 27, Stand E35 and outdoor display area, J43. Carrier Transicold also will host a press conference on Sept. 14 at 14:00 at its booth.

For more information on Carrier Transicold products visit www.carriertransicold.eu or on LinkedIn at [Carrier Transicold Truck Trailer Refrigeration](#). To learn more and

explore the platform, [visit Carrier Transicold Parts Shop](#) and discover how it can help simplify parts procurement and support fleet uptime.
