Hot stuff from Primaflow F&P as new fires & stoves brochure released

The UK's largest plumbing, heating and bathroom wholesaler, Primaflow F&P has launched its updated fires & stoves collection brochure. The latest edition is designed to make purchasing decisions easier, as it clearly sets out each product's features and benefits, along with the guarantee period, outputs and efficiency information.

The brochure's extensive range of more than 400 products, includes realistic electric, gas and solid fuel fires, along with room heaters, stoves, hearth sets, surrounds and accessories, from the nation's favourite brands. With luxury to budget models available, everything needed is available in one place.

Primaflow F&P's Category Manager on Fires and Bathroom Products, Gary Shields says that: "The fire has been at the heart of people's homes for centuries. Of course, a fire or stove should provide warmth, but these days they can offer so much more. They can be unobtrusively effective or a real design statement while still remaining practical. Suppliers and installers don't have to wait until the cold weather returns before helping customers make a significant improvement to their homes. We have a huge range of products in stock and available for delivery the next working day*."

The brochure showcases, and clearly sets out, ranges included in the Glen Dimplex Approved Network Scheme which are exclusive to approved outlets. The scheme, managed by Glen Dimplex, includes the Dimplex Display and Demonstrate Scheme, Valor Centres and Inspire Collection.

* F&P offers next day delivery (subject to availability) on orders placed Monday to Friday before 5pm; any orders placed after 5pm will be delivered next working day.
