## **ISUZU TRUCK UK AND EVEREADY HIRE CONTINUE 22-YEAR RELATIONSHIP WITH TWO NEW 7.5-TONNERS**

South East-based Eveready Hire has taken delivery of two new Isuzu N75.190 long wheelbase trucks from local dealer Cordwallis Group, continuing a long-standing relationship with the manufacturer that has now spanned more than two decades.

Joining a 16-strong fleet, of which half are Isuzu 7.5-tonners, these latest two replace identical vehicles coming to the end of their service with the company. Mounted with plant bodies featuring a beavertail design from Solent Bodybuilders & Repairs, both new trucks have been fitted with hydraulic ramps, an electric winch and heavy-duty lashing points to support the company's light and medium plant hire delivery operations.

Donovan Wilson, Operations Director for Eveready Hire, says: "We have run Isuzu trucks in our fleet since we opened for business in 2003. The 7.5-tonners are perfect for our plant delivery operation – reliable, hardworking and versatile, with enough payload capacity for commercial sites, but a small enough footprint for domestic locations.

"In addition, the service we receive from the team at Cordwallis is fantastic. They go above and beyond to make us feel like a priority. We know we can rely on them to ensure any new vehicle is going to meet the demands of our business."

As with all Isuzu chassis, the two 7.5-tonners come with the manufacturer's comprehensive three-year unlimited mileage warranty, which includes 24/7 roadside assistance and full access to Isuzu Truck UK's Customer CARE team.

Operating across five sites in and around Greater London, the new trucks will be on the road five days a week, and are expected to remain within the fleet for at least six years.

Eveready Hire supplies plant and tools for the construction industry across London, the Home Counties, and the surrounding area.
