

Release date: 30 May 2023

**CG UTILITIES RETURNS TO MV COMMERCIAL FOR TIPPERS AND HOT BOXES TO SPUR BUSINESS GROWTH**

CG Utilities, an installation specialist, has sourced 10 DAF CF450 32-tonne tippers and 10 new DAF LF290 18-tonne hot box trucks from MV Commercial to manage the rapid expansion of its business.

The company operates nationwide on a wide range of multi-utility projects, focusing largely on the installation of fibre optic cabling for clients across multiple sectors.

Oli Gresham, Transport Manager at CG Utilities, says: “After launching the business in 2020, we are experiencing rapid growth. We need the hot boxes and tippers to service our contracts and improve the efficiency of our operations across the UK.

“The tipper trucks and hot boxes are very popular with our drivers and also offer improved fuel efficiency over our existing fleet.”

The FORS-compliant tippers and hot boxes join the specialist contractor’s mixed fleet of 200 vehicles that includes transit tippers, transit box vans, transit MEWPs, Toyota Proace City vans and DAF beavertails.

The deal builds on CG Utilities’ growing relationship with MV Commercial, which recently supplied seven hot boxes and three refurbished tipper grabs to the Wiltshire-based company.

“MV has always looked after CG Utilities’ needs. Ronnie Stark at MV Commercial offered us some great options and expertise when we needed to expand the fleet,” says Gresham.
