TVL Group maximises customer service through headquarters expansion

TVL Group has unveiled its expanded company headquarters in Brentwood, Essex, with the vehicle security and innovation expert strategically investing in additional working space and storage capacity to significantly improve its operational potential, while also reintegrating its specialist installation arm ProtectAVan into the central site.

To facilitate the sustainable growth of the business, TVL Group's flagship facility now boasts a substantially larger yard – a huge 35% increase on the previous site – and 20,000 sq ft of additional warehouse capacity to stock more parts and products. The total investment sees its headquarters now span 112,731 sq ft.

The move, in particular, will maximise the efficiency of the ProtectAVan team, especially due to the decision to install a new vehicle compound capable of holding more than 200 vans at any one moment. This means ProtectAVan can efficiently accommodate much larger orders and complete conversions much quicker, boosting overall customer service.

In addition, the decision to welcome ProtectAVan back after it moved to a larger unit away from the estate in 2017 to the company's headquarters means it shares a common workspace with TVL Security, TVL Finishing and TVL Manufacturing. This will allow for internal expertise to be shared much more easily, fostering innovation while accelerating product development.

Laura Moran, Managing Director of TVL Group, says: "This investment in the TVL Group headquarters marks an exciting new chapter for us, with the move meaning we can now work together much more closely and share ideas and resources with ease.

"In today's climate, robust vehicle security is more important than ever before. This expansion underscores our commitment to providing as many customers as possible with quick and easy access to affordable and effective solutions, positioning TVL Group at the forefront of innovation in our sector."

The new address for the business is 45 Horndon Industrial Park, Brentwood, Essex, CM13 3XL, this site is in addition to the other sites ProtectAVan operates from in Loughborough and Swindon.
