13 May 2025

# TVL Security becomes official Mercedes-Benz VanPartner Supplier

Enhanced Mercedes-Benz-approved vehicle security equipment is now available to customers through a new collaboration with TVL Security, with the latter now recognised as an official VanPartner to the globally recognised manufacturer.

The partnership means customers opting for a brand-new Mercedes-Benz Van can choose to have their vehicle equipped with TVL Security's Protect+ system prior to delivery, ensuring their vehicles are fully equipped to work safely and securely immediately upon arrival.

Laura Moran, Managing Director, TVL Group, says: "Partnering with Mercedes-Benz perfectly aligns with our ambition to make it as simple and easy as possible for operators to access robust and reliable vehicle security. With TVL Protect+ now available through the VanPartner programme, customers can immediately benefit from robust and reliable vehicle security, offering unmatched convenience and peace of mind."

TVL Security's Protect+ range offers targeted protection for commercial vehicle operators by installing secondary locks and protection plates that work independently of the vehicle manufacturer's main system.

Designed to defend and cause lengthy delay to unauthorised entry, it is particularly suited for businesses that leave valuable equipment in their vehicles overnight or for extended periods.

Ian Knight, Bodybuilder Programme, Engineering and Homologation Manager, Mercedes-Benz UK, said: "Mercedes-Benz Vans are already known for their strength and reliability, but with the addition of TVL Security's Protect+ as an option, we're providing our customers with enhanced security tailored to their operational needs. This partnership reinforces our commitment to delivering exceptional value and performance to our customers."

To achieve official VanPartner status, Protect+ products underwent a rigorous testing process to verify the quality, robustness and performance as well as TVL Security's manufacturing prowess, with the business passing with flying colours on both counts.

Based in Brentwood, Essex, TVL Security manufactures, supplies and installs a wide range of innovative vehicle security products for both sole traders and larger fleets.
